

Sailability

The aim of Sailability is to introduce people of all ages and abilities to the joys of sailing in a straightforward, fun, inexpensive way in a supportive environment. Community-based Sailability Branches are continually being established around Australia, with some located at existing yacht clubs and others operating independently.

Most of our sailors just enjoy the freedom and fun of recreational sailing and the supportive social atmosphere, but there are also plenty of opportunities for the more competitive to develop their racing skills.
